

Financial Disclosure Form for Investigators in Federally-Sponsored Research Cover Memorandum

PURPOSE

This memorandum provides guidance in the disclosure of Significant Financial Interests pursuant to Appendix C of the POLICY ON CONFLICTS OF INTEREST AND COMMITMENT FOR FACULTY AND INVESTIGATORS. **Please read and sign before completing the Disclosure Form.**

DISCLOSURE BY INVESTIGATORS

The Financial Disclosure Form must be completed by Investigators who plan to participate in federally-funded research or who are engaged in federally-funded research. Investigators must disclose Significant Financial Interests, and those of the investigator's spouse/domestic partner and dependent children, that reasonably appear to be related to the investigator's institutional responsibilities. The University will assess the disclosures for the purpose of determining whether Significant Financial Interests constitute a financial conflict of interest that could directly and significantly affect the design, conduct, or reporting of a federally funded research project.

Each Investigator participating in federally-funded research, including NIH-funded work, must update his or her disclosure annually during the period of the award to reflect any information not disclosed initially or updates to any previously-disclosed Significant Financial Interests. Investigators are also required to report new Significant Financial Interest within 30 days of discovering or acquiring the interest.

Investigators, including subrecipient Investigators following GW Policy, must disclose the following:

(a) Any remuneration, regardless of amount, received from (i) a foreign institution of higher education, including any affiliated research institutes; (ii) a foreign academic teaching hospital or medical center; and/or (iii) the government of a foreign country (which includes local, provincial, or equivalent governments of another country).

(b) Gifts in support of research regardless of value and without regard for whether the source is domestic or foreign.

(c) Investment, advisory, or board positions in any for-profit company, whether domestic or foreign.

(d) Academic, professional, or institutional appointments or affiliations outside of GW, whether foreign or domestic, for-profit or non-profit. This disclosure obligation is without regard for whether remuneration is received, and/or whether the position is full-time, part-time, visiting, adjunct, honorary, temporary or voluntary.

DEFINITIONS

"Institutional Responsibilities" means an investigator's professional responsibilities on behalf of the University, which may include for example: activities such as research, research consultation, teaching, professional practice, University committee memberships, and service on panels such as Institutional Review Boards or data and safety monitoring boards.

"Investigator" means the project director or Principal Investigator and any other person, regardless of title or position, who is responsible for the design, conduct or reporting of research funded by federal sponsors, which may include, for example, consultants or collaborators.

“Research” means a systematic investigation, study or experiment designed to develop or contribute to generalizable knowledge relating broadly to public health, including behavioral and social-sciences research. The term encompasses basic and applied research (e.g., a published article, book or book chapter) and product development (e.g., a diagnostic test or drug).

“Significant Financial Interest” means a financial interest¹ consisting of one or more of the following interests of the investigator (and those of the investigator’s spouse/domestic partner and dependent children) that reasonably appears to be related to the investigator’s institutional responsibilities:

(a) With regard to any **publicly traded entity**, a Significant Financial Interest exists if the value of any remuneration received from the entity in the twelve months preceding the disclosure and the value of any equity interest in the entity as of the date of disclosure, when aggregated, exceeds \$5,000. For purposes of this definition, remuneration includes salary and any payment for services not otherwise identified as salary (e.g., consulting fees, honoraria, paid authorship); equity interest includes any stock, stock option, or other ownership interest, as determined through reference to public prices or other reasonable measures of fair market value:

(b) With regard to any **non-publicly traded entity**, a Significant Financial Interest exists if the value of any remuneration received from the entity in the twelve months preceding the disclosure, when aggregated, exceeds \$5,000 or when the investigator (or the investigator’s spouse/domestic partner or dependent children) holds any equity interest (e.g., stock, stock option, or other ownership interest);

(c) Intellectual property rights and interests (e.g., patents, copyrights), upon receipt of income related to such rights and interests; or

(d) The occurrence of certain reimbursed or sponsored travel.²

Income from seminars, lectures, teaching engagements, advisory committee service, or review panels and reimbursed or sponsored travel when such activities are sponsored by a U.S. governmental entity; an institution of higher education, academic teaching hospital, and medical center in the U.S.; and a research institute that is affiliated with an institute of higher education or a related entity in the U.S., do not require disclosure.

I certify that I have read and understood the information provided in this document.

¹ A financial interest is anything of monetary value, whether or not the value is readily ascertainable.
